

## PARENTS AS TEACHERS

### USING PRESCHOOL EXPRESS

Aimee writes,

I recently discovered your site and just wanted to say “thank you”. This site has so many awesome activities and ideas for parents. I really like the activity calendars. They allow me to do quick activities with my children even on the busiest days. I also appreciate how the site is organized.

I decided to homeschool my children during the preschool years and have found it difficult to find material that is easy to use. Now that I found your site, I am able to quickly plan and execute my curriculum.

Jean replies,

Thanks for all you kind words about Preschool Express. I have tried to design the site to be of value not only to teachers but to parents and grandparents as well. I have always wanted parents to understand that the everyday things they do already with their children can be educational. Helping parents look for teaching moments, when their children are curious about the world around them is as good as it gets.

Sincerely, Jean Warren

Your site is exactly what I've been looking for! I am a mother of a 2 year old and a 7 month old who has been struggling to find an easy and fun ways to plan each day for my kids! Your site is amazing and so helpful! I now have the calendar up and am looking forward to following along! This stuff does not come naturally for every mom. Your direction has helped relieve the stress of “what to teach” and how, while being fun and festive! Thank you for sharing your knowledge and thank you for making it free! I very much appreciate your time and your help!

Jean replies,

Thank you for your kind words about Preschool Express. I am glad that as a parent you are more confident about working with your children to help them build a solid foundation for future learning.
